🎓 EDUCATION

Bachelor of Arts (Hons), Vinoba Bhave University
Hazaribag, India

📁 PROJECTS

Quiz Application, MERN Stack Project

MERN Stack | React, Node.js, Express, MongoDB

- Built an interactive quiz platform with authentication, real-time score calculation, and result tracking.
- Designed dynamic quiz flows and dashboards for users.

Key Features:

- User authentication
- Quiz dashboard
- Scoreboard & result analysis

Render Time Calculator, Full Stack Project

Full Stack | React, Node.js, Express, Mysql

- Developed a web application to estimate total rendering time for video and 3D projects based on user inputs.
- Improved project planning efficiency for designers and video editors.

Key Features:

- Real-time render calculation
- Responsive UI
- REST API integration

BookStore App, MERN Stack Project

MERN Stack | React, Node.js, Express.js, MongoDB

- Built an online bookstore application allowing authenticated users to access and read books.
- Implemented secure login and protected routes.

Key Features:

- User authentication
- Book access & reading interface

RFQ World – B2B Request for Quotation Platform, Full Stack Project

MERN Stack | React, Node.js, Express, Mysql

- Developed a full-stack B2B web platform that enables buyers to submit RFQs and receive competitive quotations from multiple suppliers, improving procurement efficiency and cost transparency.
- Built secure authentication and role-based access for admin and users.
- Implemented RFQ lifecycle management including creation, tracking, and quote comparison.
- Designed responsive dashboards for managing users, RFQs, and supplier responses.

Key Features:

- RFQ submission & tracking
- Supplier quote comparison
- Admin panel for user & RFQ management
- Secure REST APIs

Chat Application, Full Stack Project

MERN Stack | React, Node.js, Express, Mysql, Socket.io

- Developed a real-time chat application enabling instant messaging between users.
- Implemented WebSocket-based communication for live message delivery.

Key Features:

- Real-time messaging
- Secure user authentication
- Responsive chat interface

👤 PROFESSIONAL SUMMARY

- Detail-oriented and results-driven Full Stack Developer with 1+ year of hands-on experience building responsive, scalable web applications using the MERN stack. Proficient in front-end technologies (React, HTML5, CSS3, JavaScript) and back-end development with Node.js and Express. Skilled in developing RESTful APIs, designing databases with MongoDB and MySQL, and deploying end-to-end web solutions. Strong collaborator and problem-solver committed to delivering impactful, user-centric applications.

🧠 SKILLS

Programming Languages

- **Languages:** JavaScript (ES6+), HTML5, CSS3

Web Development

- Skilled in front-end web development using HTML5, CSS and GitHub

Front-End Technologies

- React.js
- HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
- Redux, Zustand, Context API

Back-End Technologies

- Node.js, Express.js, RESTful API Development
- API integration

Databases

- MongoDB, MySQL

Tools & Platforms

GitHub, VS Code, Postman

Soft Skills

- Communication, Teamwork, Time Management, Technical Documentation, Continuous Learning
- Technical documentation

📜 CERTIFICATES

- Full-Stack (MERN) Development Bootcamp - KnowledgeHut Ugrad

💼 PROFESSIONAL EXPERIENCE

Junior Full Stack Developer,

Meraaquii D&C Private Limited

February 2025 – present | Kolkata, India

- Developed and maintained full-stack web applications across **4+ projects**, handling both frontend and backend logic.
- Built responsive UI components using React and Tailwind CSS.
- Developed secure and scalable APIs with Node.js and Express.
- Managed data storage and queries using MongoDB and MySQL.
- Collaborated with cross-functional teams to deliver solutions aligned with client requirements.
- Improved system reliability through proactive debugging and monitoring.
